but winning this title changed my perspective about beauty pageants. After winning this pageant, I realized that beauty pageant is all about accepting yourself the way you are and supporting your co-contestants. The things I learnt at Mega Miss North East helped me immensely during my stint at Miss India pageant as well, and in achieving the top-6 spot in the reputed pageant." Hirok Jyoti Kalita, who won the title of Mega Mister North East 2018, said, "Mega Mister North East helped me build my confidence and gave me an identity that I never had. This stage means a lot to me. I achieved one of my biggest dreams by winning this title. Mega Mister North East is not just another contest. It is an institution which taught me the importance of grooming, discipline, and most importantly punctuality, without which one cannot survive in any industry. What I learnt during my tenure as Mega Mister North East will continue to guide me throughout my life, and hopefully will help me guide other aspirants in this industry as well."
