The changing face of Manipuri youths

In an effort to keep up with the increasing pace of development and advancement in every sphere, our lives are being forced to conform and keep pace with these progressions. The comings of various electronic gazettes which enable us to communicate with any person, at any moment, at any place make this world a village. Issues vary and lifestyle differs. The perception of the once upon a time generation which felt that only those who blessed with opportunity could live a King size lifestyle has changed in today's world. Every people around the world now knew that there are Americans or British or the Chinese who don't like the superiority thinking perception of their older generation. As we see the changing trend we the people across the globe today sees youths which coming up as human, no matter how poor he or she was brought up.

A daughter of this soil, Binalaksmi Nepram is honoured with a global award (2018 Anna Politkovskaya Award) for her bravery in speaking out and in defying injustice, violence.

A 22 years old youth Birkarnelzelit Thiyam, born and brought up by a parents who live on hand to mouth now become one of the best Motivational orator. Young Manipuri at the age of 25 now established a company that give jobs to over 500 youths of the state. There is reason to believe that amidst the storm from the northern block Manipur cannot be stop from marching ahead toward development as long as Young entrepreneur like Sanasam Jacky, the Chairman of Lamjingba Group exist.

Ng. Samarjit, the CEO of Salai Holding, a private company, has now successfully started expanded his business across the globe by opening office at world most expensive city like Singapore and Dubai. Manipur today is changing so should the perception of guiding to understand their responsibility is the need of the hour than restricting them or giving punishment.

An inevitable change is taking place- what is now being accepted as the "quick-fix" mantra or instant gratification- instant food, instant drink, instant relationships and instant solutions.

Such changes, borne out of necessity rather than a fad, bring with it various radical changes that cater to the needs and conveniences, most remarkable being the spawning of a whole new sector of packaged foods and drinks that can be used in an instant.

The seemingly like preconceived mode to bringing up their children in Manipur society should be changed. As a restriction might misguide your children no matter what you are doing is for the good the motive will give frustration, anger and hate all his or her live. But if the dealing with your children is with love and understanding or by making him or her understand how things should be than the bondage of love and respect will grow.

Its family that is important, but the more important is the society or politically a state or nation. The rulers who ruled are more like father or mother. The people are the children and forcing the people to do things that you people want will be a disaster. What is happening in the state of Manipur is like having a strict parent who punishes their children every time over failure to follow what the parents think were right.

The unanimous condemnations and protests, while understandable and desirable, could also spell a premature demise of a nascent industrial movement in the State. We should spare a moment to delve deeper into the actual trials and tribulations that a few of our pioneering people from the State are facing to bring about a revolution of sorts by fighting against almost insurmountable odds to turn their dreams into reality.

Taking the untrodden path has always been fraught with dangers and uncertainties, especially in a State like ours where only negativity and pessimism thrives, not to mention the teeming parasites lurking in the shadows, waiting for any vulnerabilities and weaknesses of fellow beings to take advantage of. The Government should take proactive steps and help out these struggling start-ups to flourish and show the way to an industrialized society instead of taking a negative and punitive stand. It would be stating the obvious to mention the fact that the laws, measures, plans and steps of the Government at present is not conducive for the growth of industry- from investment and financing problems to the utter absence of support and encouragement which is vital for a sustainable and viable industrial atmosphere.

The number of M.P's in the Lok Sabha and Rajya Sabha must be increased to 10 and 4 respectively

By : O. Pradipkumar Singh

In the Manipur State Assembly, there are 60 MLA's in the Lok Sabha 2 MP's in the Rajya Sabha 1 MP in the Inner Manipur Parliamentary Constituency, there are 32 Assembly Segments and in the outer Manipur Parliamentary Constituency, there are 28 Assembly segments with three(3) MP's.

In Assam, there are 126 MLA's in the Lok Sabha there are 14 MP's and in the Rajya Sabha there are 7MP's. In Punjab there are 117 MLA's in the Lok Sabha there are 13 MP's in the Rajya Sabha there are 7MP's. In Haryana there are 90 MLA's in the Lok Sabha there are 10 MP's in the Rajya Sabha there are 5 MP's. In all there three states, there is one MP for every 9 Assembly Segments.

In West Bengal there are 294 MLA's in the Lok Sabha there are 42 MP's and with the Rajya Sabha there are 16 MP's. In Andhra Pradesh, there are 175 MLA's in the Lok Sabha, there are 25 MP's in the Rajya Sabha there are 11MP's in Telangana there are 119 MLA's in the Lok Sabha there are 17 MP's in the Rajya Sabha there are 7 MP's. In Orissa there are 147 MLA's in the Lok Sabha 21 MP's in the Rajya Sabha there are 10 MP's. In Kerala there are 140 MLA's in the Lok Sabha there are 20 MP's in the Rajya Sabha there are 9 MP's. In all there five states, there is one MP for every 7 Assembly segments.

In Maharashtra, there are 288 MLA's in the Lok Sabha there are 48 MP's in the Rajya Sabha there are 19 MP's. In Tamil Nadu there are 234 MLA's in the Lok Sabha there are 39 MP's and in the Rajya Sabha there are 18 MP's. In these two states, there is one MP for every 6 Assembly Segments.

In Uttar Pradesh, there are 403 MLA's in the Lok Sabha there are 80 MP's in the Rajya Sabha there are 31 MP's. There is one MP for every 5.0375 Assembly Segments as well as most advanced state.

In Maharashtra and Tamil Nadu there is one MP for every 6 Assembly Segments and they received Rs. 5 crores as Local Area Development Fund lying in the development of 6 Assembly Segments. In Manipur for the Inner Manipur Parliamentary Constituency there are 32 Assembly Segments and for the outer Manipur Parliamentary Constituency there are 28 Assembly Segments, getting Rs 5 crores from the Government of India every year.

As entitlement of the Manipuris, Rs 10 crores are given annually from the MP local area development fund for the 60 Assembly Segments of Manipur. On the other hand for 60 Assembly Segments of Maharashtra and Tamil Nadu Rs. 50 crores are given annually. For one year of local area development fund to increase amount of Rs 40 crores are given. For five years local area development fund, Rs 200 crores

increased are given. In short for 60 Assembly segments in Maharashtra and Tamil Nadu the amount of Rs. 250 crores are received as Local Area Development Fund. On the other hand for Manipur for 2 MP's Rs 50 crores are received. Let the Public discuss whether a state for which the outlay is Rs 250 crores and another for which the outlay is Rs 50 crores will develop.

In Tripura there are 60 Assembly Segments the area of Tripura is 10,499.69 sq.km the territorial area of Manipur is 22,327 sq.km comparing with Manipur, the area of Tripura is not even half the territorial area of Manipur but it has 2 MP's in the Lok Sabha and 1 MP in the Rajya Sabha which is the same with Manipur. In Delhi, there are 70 Assembly segments in the Lok Sabha it has 7 MP's in the Rajya Sabha there are 3 MP's. It gets 1 MP for 10 Assembly segments and has more MP's than Manipur. The territorial area of Delhi is 1,483 sq.km Manipur is 15 times bigger than Delhi.

The geographical area of Nagaland is 16,579 sq.km with 60 Assembly Segments and there is one MP each in the Lok Sabha, Rajya Sabha. In Mizoram there are 40 Assembly segments, in the Rajya Sabha and the Lok Sabha there is one MP each the geographical area of Mizoram is 21,081 sq.km. In Meghalaya there are 60 Assembly segments in the Lok Sabha there are 2 MP's and in the Rajya Sabha, there is one (1) MP. The geographical area of Meghalaya is 22,429 sq.km. In Arunachal Pradesh there are 60 Assembly segments. In the Lok Sabha there are 2 MP's and in the Rajya Sabha there is one MP the geographical area of the Rajya Sabha there is 7 MP's. The geographical area of Assam is 78,438 sq.km. There are 32 Assembly segments in Sikkim there is one MP in the Lok Sabha and there is one MP in the Rajya Sabha the geographical area of Sikkim is 7,096 sq.km.

The geographical area of Manipur is 8000 sq.miles and the geographical area of Kabow Valley is 7000sq.miles. After Manipur was merged into the Indian Union of October 15, 1949, Pandit Jawahar Lal Nehru representing the Government of India, as the first gift of Manipur, Kabow Valley was given to Myanmar (Burma) permanently. After Kabow Valley was given away the geographical area of Manipur as 22,356 sq.km is included in the 1988 international year Book. However, in between Rajiv Gandhi and VP Singh of National Front Government by giving 29 sq.km to Myanmar (Burma) as second gift, the present total geographical area of Manipur is 22,327 sq.km.

As the third gift of the Government of India, Atal Bihari Vajpai Jee led National Democratic Alliance (NDA) Governments LK Advani and AB Vajpaijee conspired to extend cease fire without territorial limit under Bangkok

Declaration in 2001 make arrangements to give away Naga habited area of Manipur to Nagaland.

It is a know fact that the NDA government carried out Uttarakhand/Uttarkhand from Uttar Pradesh, Jarkhand from Bihar and Chhatisgarh from Madhya Pradesh. On the other hand Dr. Manmohan Singh of United Progressive Alliance (UPA) Government created Telangana out of Andhra Pradesh. Inspite of leaders of Andhra Pradesh urging not to disintegrate Andhra Pradesh, President Pranab Mukherjee signed and approval was given. If the Naga inhabited area of Manipur is given to Nagaland by India which gives the message of Peace as well as Nuclear Power Country and non-violence and members of the Non-Alignment movement, taking the opportunity of the weakness of the Manipur State Government as the third gift of Manipur, it will be the epicentre of World War-III is the belief of Manipur Labourer Union.

Whether the Manipuris who cannot say anything beginning from the losing of Kabow valley adn 29 sq.km of territorial area can believe the promises made by the Congress - I and the BJP that not an inch of Manipur territory will be given away is a point to be discussed by the people of Manipur.

According to the Report of International year Book 1988, the geographical area of Manipur is 22,356 sq.km. According to report received from Encyclopedia India the geographical area of Manipur is 8,000 sq.mile. If the fact that the area of Kabow Valley is 7,000

sq.mile is true the area of Manipur will be 15,000 sq.mile. In sq.km Manipur 22,356+Kabow Valley 19,561, the total area of Manipur will be 41,918 sq.km. It will be greater than Kerala which has 20 MP's in the Lok Sabha with area of 38,863 sq.km.

Since 1 MP is given to a population of 10 lakhs, whether the numbers of MP's of Kerala which has 3,33,87,677 population and West Bengal which has 9,13,47,736 population will increase 33/34 and 91/92 MP's respectively? And why is Family planning implemented in Manipur which has only 27,21,756 population with a huge amount?

However, Manipuri Labour Union will start demanding to the Government of India by submitting memorandum that the Number of MP's in the Lok Sabha and Rajya Sabha must be increased to 10 and 4 respectively by giving one MP to every 6 Assembly segments of Manipur.

N.B. Ref.No. MLU/241/17 dated 24-01-2017 Statement "12 Council of Ministers must be increased to 18 Council of Ministers" the unskilled Labour charge Rs.255 should be read as Rs. 255. Regarding Ukhrul Rs. 120x2=240 reds as Rs 225 and the deficit amount is Rs. 15. The Labour charge fixed by the Manipur Labour Department in 2014 cannot meet the expense of two square Meals. Note even a rupee is left for tea and Roti. In this condition can people of Ukhrul like to work - it should be read. For the errors committed, Manipuri Labour Union appeals to the people forgive.

Date of Birth Certificate

I, Nongthombam Sependro Singh, aged about 31 years, S/o N. Thoiba Singh, resident of Sabaltongba Mayai Leikai, P.O. & P.S.
